Re: Conflict Minerals

Truth Hardware products are manufactured in accordance with the North American Fenestration Standard / Specification for Windows, Doors, and Skylights AAMA/WDMA/CSA 101/I.S.2/A440-11 (NAFS) and can be summarized according to the following supplier requirement:

Conflict Minerals

Hardware products supplied by Truth Hardware do not contain conflict minerals, defined by SEC rule in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, as columbite-tantalite, also known as coltan (the metal ore from which tantalum is extracted); cassiterite (the metal ore from which tin is extracted); gold; wolframite (the metal ore from which tungsten is extracted) or their derivatives.

There is a trace amount (considered an impurity) of tin in Truth's Zamak 3 zinc however it is less than 0.1% by weight and is not derived from African cassiterite ores.

Truth Hardware takes concerns relative to our environment very seriously and always attempts to do our very best in being responsible towards this important issue.

Sincerely,

Matt Kottke
Marketing Support Manager
