

## Optional Accessories Available:

**Hand Held RF Remote**—with 80 ft of range, incorporates rolling code security and is capable of controlling up to 4 individual motors. Includes a magnetic wall mount.

**Rain Sensor**—connects directly to the RF receiver for added security, is designed not to react to fog or dew and is “heated” to prevent the formation of ice or condensation and allows the sensor to dry itself after the rain has stopped.

The Next Generation Of Power Window  
And Skylight Operating Systems.

# Power Operator For Windows And Skylights.

Easy Installation, Superior Reliability And Simple To Operate!

## Marvel™

Truth Hardware's new Marvel™ power operator system for windows and skylights proves that simpler can be better. Challenged with the expectation of window and skylight manufacturers with providing a small and sleek motorized system that is simple to install, easy to operate and above all affordable—Truth is confident that the Marvel System is the answer.

## Easy To Install And Operate

With installation templates provided in each kit, the mounting brackets used to help secure the Marvel Operator to the center of your window makes this system one of the easiest systems to install.

- Three styles of mounting brackets accompany this product to allow for easy mounting.
- Can be face-mounted or mounted to applications with sills.
- No transformer required. Operates from 110 volt household current.

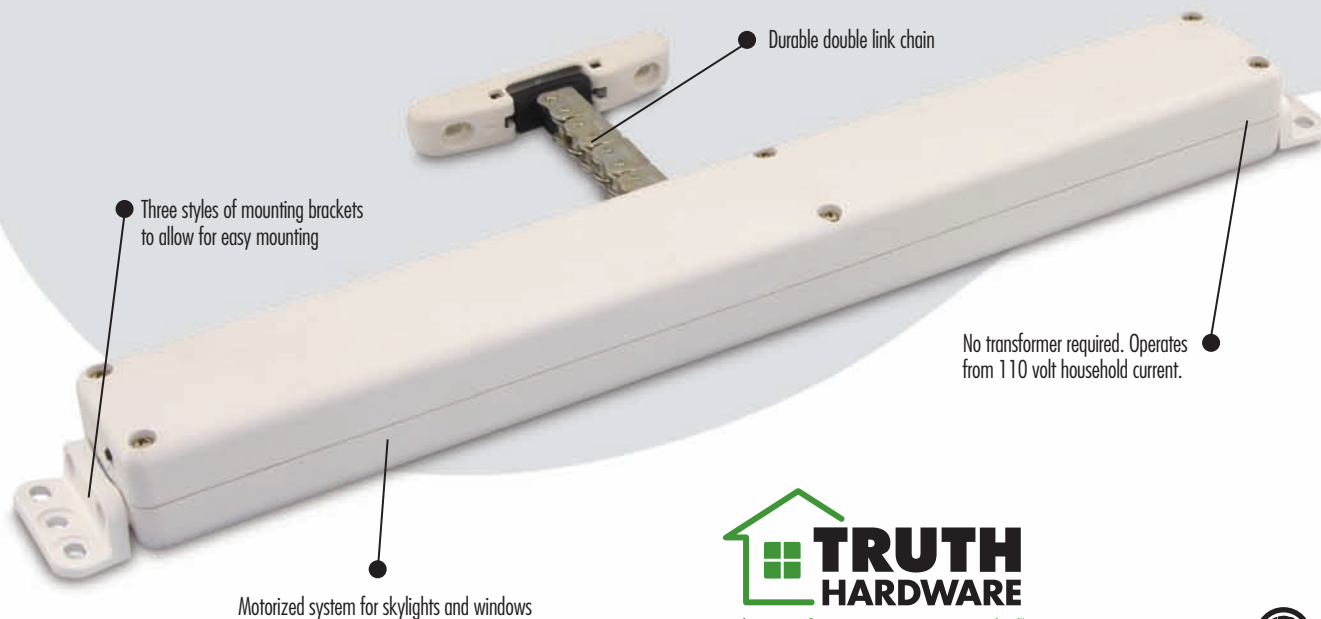

- Controlled using a standard, single pole/double throw, center off momentary contact switch.
- Optional RF remote control and rain sensor available.
- Durable double link chain produces 9.5" of chain travel.
- Electronic limit switch controls the opening position while the closing position is controlled through an internal current sensing feature.
- Users can operate multiple units from one control switch.

## Marvel Operator Capacity And Rating

- Rated to lift skylight sashes that weigh up to 90 lbs.
- Designed to work on awning windows with properly sized counterbalance hinges.
- Marvel Operators are ANSI/UL 325 Certified and CAN/CSA C22.2 Certified.

**Warranty:** Protected under the terms of the Truth Warranty for Window & Door Manufacturers and Authorized Distributors. Refer to Truth's Terms and Conditions for further details.
