EURO GROOVE LOCKING SYSTEM

Adjustable Multi-point systems for both  
hinged window and door systems.

# “Plug-n-Play” Adaptability Without Sparing On The Quality And Reliability That You Expect.

## Ascent™ EURO GROOVE LOCKING SYSTEM

### Truth’s new Euro groove locking system for aluminum windows and terrace doors.

The Ascent™ Lock by Truth Hardware is our ultra flexible variation on the classic European Style Euro Groove Locking System. With multi-point systems available for both hinged window and door systems, the Ascent™ Lock allows for “plug-n-play” adaptability for a wide range of applications without sparing on the quality and reliability that you expect from Truth Hardware.

## Key Benefits:

### Engineered Components

- Handle drive fits the most common European profile groove (Type 1)
- Various keepers available to fit a wide range of frame grooves
- System allows “plug n play” adaptability for wide range of applications
- Handles are interchangeable and reconfigurable for maximum “in house” flexibility

### Adjustability of both lock point and keeper

- Gives maximum mounting flexibility
- Allows each installation to be optimized for peak performance and ease of operation

### Components designed for fast and easy installation

- Pre-assembled to reduce install effort
- Assembly is virtually mistake proof
- Simple “slide in” design ensures quick production rates
- Standardized fasteners reduce installation tools to a minimum

### Choices

- Window handles available with “Classic” or “Radius” styling
- Both styles available in single or double throw locking
- Door handles compatible with window styling
- Colors coordinate with existing Truth Hardware offerings

### Materials

- Aluminum compatible design ensures maximum corrosion resistance
  - Coatings allow no direct contact with ferrous materials
- Handles are cast zinc or aluminum for high quality feel
- Lock components are cast zinc for maximum durability

### Finishes

Handles are available in a range of 4 standard powder-coated finishes. All functional components are finished in satin “anodized” aluminum plating for maximum durability and corrosion resistance.

### Truth reliability & support

- U.S. based engineering and inventory
- Exceeds AAMA cycle life requirements
- Lock point capable of resisting up to 300 lb. force per point

Unique roller lock points meet U.S. ADA requirements for ease of operation.
